CONTRACT AWARDED FOR BUSINESS RESOURCES AND SUPPORT SERVICES

KIRTLAND AIR FORCE BASE, N.M. – A contract for up to \$49,900,000 over a five-year span was awarded today to provide support services to the Air Force Research Laboratory here.

CC&G Company, LLC, of Denver, won the contract. The company will provide support services to include professional, administrative, and management support services. That involves financial and business inventory tracking, organizational and project support, as well as conference, graphical and presentation services for the laboratory's Directed Energy and Space Vehicles Directorates.

CONTRACT AWARDED FOR BUSINESS RESOURCES AND SERVICES -2

Nine firms submitted proposals in response to a request for proposal that was posted on March 27, 2006. Proposals were received electronically and evaluated based on an ability to meet the objectives of the contract. Thirty-five labor category positions were also listed in the solicitation, including administrative assistant, budget analyst, financial analyst, management support and program analyst.

CC&G's performance will be assessed on contract criteria throughout the five years of the contract. Criteria include personnel performance (gauging timely and accurate task order document requirements, customer interaction and feedback), resource control (ensuring effective monitoring of funding and expenditures), management (to meet government requirements and resolving performance issues), security (with 100% compliance with government security requirements), and overall quality of performance.

The initial 13 individual task orders total \$17,247,232 and the \$49.9 million is the maximum amount for the contract. The initial task orders have a period of performance for the first two years, with surveillance reports assessed every three months.
